

- Osserva il codice segreto. Ad ogni figura geometrica corrisponde un numero. Calcola.

<div style="border: 1px solid black; width: 40px; height: 20px; display: inline-block;"></div> =	<div style="display: inline-block; width: 0; height: 0; border-left: 10px solid transparent; border-right: 10px solid transparent; border-bottom: 15px solid black;"></div> =	<div style="border: 1px solid black; width: 20px; height: 20px; border-radius: 50%; display: inline-block;"></div> =	<div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> =
--	---	--	--

$15 - \bigcirc = 5$	$8 + \triangle = 14$	<div style="border: 1px solid black; width: 40px; height: 20px; display: inline-block;"></div> $- 2 = 1$	$7 + \triangle = 13$
<div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> $- 3 = 2$	$17 - 7 = \bigcirc$	$3 + 7 = \bigcirc$	$\triangle + \div = \dots\dots$
$14 + \bigcirc = 24$	<div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> $- \div = \dots$	$18 - 12 = \triangle$	<div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> $+ \div + \div = \dots\dots$
$13 - 8 = \div$	$\bigcirc + \triangle = \dots\dots$	$\bigcirc \times \div = \dots\dots$	$12 - 9 = \dots\dots\dots$

Ora inventa tu delle operazioni con il codice segreto.
